-**Front-end Development**: HTML, CSS, JavaScript (JS), React
-**Back-end Development**: Java , PHP,C# , C++, RESTful APIs, .
-**Database Management**: MySQL, SQL Plus.
-**Problem Solving**: Strong foundation in Data Structures and Algorithms (DSA).
-**Application Design**: Experience in designing scalable and user-friendly applications.
-**Version Control**: Git, GitHub for collaborative development.
-**Deployment:** Docker, Kubernetes for containerization and orchestration .

Projects

E-Commerce DashBoard For Agriculture Agency   Link to Demo

Tech Stack: **PHP, Mysql, Html,Css,Bootstrap,React**

• Developed an E-Commerce Dashboard using PHP, MySQL, HTML, CSS, Bootstrap, and React.
• Facilitated direct transactions between farmers and customers, eliminating intermediary commissions.
• Enabled farmers to sell fresh produce directly to consumers through the platform.
• Implemented four modules: Customer, Farmer, Deliveryman, and Admin (main), enhancing operational efficiency and user management.

Certificates and CourseWorks

Java Full Stack Development in QSpiders Software Training Institution (2023-2024) [View Certificate]
GPU Architecture and Programming in NPTEL (2024) [View Certificate]
J2EE Course in Udemy (2024) [View Certificate]
Google UX Design in Coursera (2024) [View Certificate]

Achievements

- Successfully Developed and Published more than 10 website in Internet.
- Solved 150+ LeetCode problems, improving problem-solving skills.
- Contributed to hackathon-winning projects..
- Recognized for excellence in programming competitions..
- Completed professional development courses, enhancing skills in Software Industry.
